

TOURO LAW PROUDLY ANNOUNCES THE CREATION OF TWO NEW LEGAL CLINICS

Touro Law Center is pleased to announce two new clinics which began on January 11, 2010 that will provide vital services for the local community while ensuring hands-on legal training for our students. In addition, we welcome two new faculty members who are experienced practitioners to direct these clinics.

We are proud to offer these clinics. We believe they will have a profound impact on the people we serve, as well as Touro Law students who will be able to hone their legal skills while becoming aware of the problems facing the Long Island community.
